

Dear Sir,

CHIBEK ISO CERTIFIED MODULAR LABORATORY FURNITURE

We are pleased to introduce our re-configurable modular Laboratory Furniture, existing with different frames, worktops, color and most importantly flexible designs as shown below.

Our laboratory furniture complies with International Standards and our management system complies with ISO 9001:2015 Quality management system.

Our products and services include:

- Manufacturing of modular Laboratory Furniture and Cleanrooms
- Manufacturing of Fume Cupboards and Laminar Flow systems.
- Manufacturing of Reagent shelves and cabinets.
- Consultancy services in designing, construction and equipping of new laboratory.
- Renovation and Upgrading of obsolete laboratories.

NEXT STEP

- (1) We will be pleased to offer you free 2D and 3D designs of your laboratory space.
- (2) We will also be willing to make a presentation/exhibition of our products to show you the quality, reliability and technical benefits.

We look forward to hearing from you soonest.

Welcome to
Chibek Instruments Ltd.

Laboratory Catalogue

Chibek Instruments Limited is a modern enterprise specializing in laboratory plan, design, production, installation and after sales services. Our corporate head office is located in Lagos with a production facility covering an area of approximately 10,000m². Our products are in various series including all-steel, wood & steel furniture, fume hoods, laminar flow systems, lab storage cabinets, and other lab accessories and fittings.

Our company also supply, install and service scientific and engineering equipment from top world brands such as Thermofisher, Shimadzu, CarlZeiss, Edibon, Normalabetc.

For effective and continuous power solution to support analytical and various instruments, we market world class micro grid energy systems. A hybrid power lithium battery cells with multiple energy source i.e solar, electricity and generator. The sources are coordinated seamlessly with no human intervention. The life span expectancy of the systems is 20 years and manufacturer 5year warranty.

For more information....

On selected products we also show our QR code which when scanned will take you to the appropriate website page.

Dear Sir,

NOTIFICATION OF LISTING AS A CHEMICAL MARKETER

I am directed to inform you that you have been granted approval to market chemicals by the Agency. Your listing certificate No. is **3447**

Date of approval: JANUARY 2015

Expiry Date: JANUARY 2017

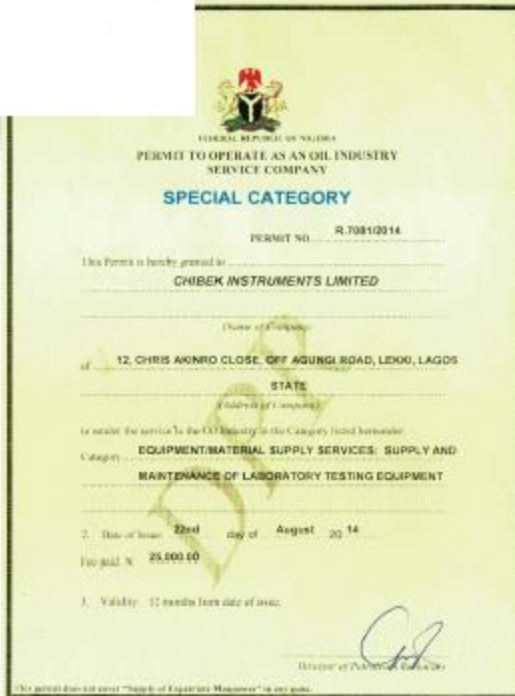

Please note that you are to submit the following when collecting your listing certificate.

- (a) Receipt of payment for listing certificate
- (b) ID card or letter of authorization from the company's MD/CEO.

This document is valid until listing certificate is ready.

Thank you.

MR. A. A. AKINTWUMI
FOR: Director General (NAFDAC)

LAB FUME HOOD

POLYPROPYLENE FUME HOOD

Polypropylene fume hood has the characteristics of resistance to strong acid and alkali and anti-corrosion, and it has overcome the defects of conventional fume hood in the environment of concentrated acid such as rusting, yellowing and cracking.

BIOSAFETY CABINET

The Biosafety Cabinet is a safety device to protect the personnel, environment and product. It is the most commonly used containment device for work with biohazardous agents or materials. During operations, it helps avoid exposure to possible infectious aerosols and spills for the operation of experimental material of bio-hazardous, nature microbial strains or clinical diagnostic inspection sample. This Biosafety Cabinet is widely used in biological experiments the most important barrier (Primary Barrier) and frontline defense for the safety of the operator. Biological safety cabinets that are installed, certified, and used correctly offer user, environmental, and product protection from biohazards.

Class II type A2 Biosafety Cabinets currently dominate the market in popularity among all Biosafety Cabinets. They are designed to work with agents that require Biosafety Level 1 - 3 containment and minimize hazards. A2 Biosafety Cabinets maintain negative pressure environments inside the cabinet during operation to prevent the contaminants from escaping the work area to protect the employees. To protect the product, approximately 70% of the room air is pressurized by the blower and forced through the supply HEPA filter prior to entering the work area. Finally, the remaining 30% of air is filtered through an exhaust HEPA filter. The sterile air finally exits the cabinet and is released back into the environment.

Application areas: Hospitals, Universities, Research Centers, Pharmaceutical Companies and Biological / Life Science laboratories.

SHIMADZU
Excellence in Science

SHIMADZU INTRODUCTION

‘Contributing to Society through Science and Technology’

Based on this corporate philosophy that represents the pioneering spirit inherited from our founder, Shimadzu Corporation has continued to develop all our businesses for the past 140 years since its foundation in Kyoto in 1875.

Our analytical and measuring instruments, and industrial machinery are now used for a broad range of applications in a wide variety of industries, where they serve society by providing confidence and convenience through the business operations of our customers.

Similarly, Shimadzu systems for medical diagnostic and treatment applications and new drug research and development applications help support doctors and researchers involved in protecting people’s health in an ever increasing range of applications.

We take pride in the importance of working with customers to support industry and human health, but, at the same time, recognizing that society is currently undergoing major changes, we are now preparing ourselves to become an even stronger Shimadzu. Chibek Instrument limited, in the year 2016, became the exclusive distributor of Shimadzu and has since then been supporting all analytical systems in Nigeria.

SHIMADZU
Excellence in Science

1st Oct 2016

DISTRIBUTOR CERTIFICATE

To whom it may concern,

This is to certify that Chibek Instruments Limited is our distributor for sales promotion and technical service of SHIMADZU ANALYTICAL INSTRUMENT and their accessories in Federal Republic of Nigeria.

Chibek Instruments is the authorized company in Republic of Nigeria, to deal with Shimadzu Analytical Instruments & equipment and accessories.

Chibek Instruments is entitled to submit offer on our behalf and responsible for maintenance and technical service necessary for the offered equipment.

This certificate is valid until Oct 2017.

Support from Drug Discovery to Quality Control

Shimadzu offers extensive support for proteomics, genomics, metabolomics and other life science research products as well as chromatograph, mass spectrometer, and properties testing instrument.

Shimadzu provides instruments for analysis and services for quality control, including IQ/OQ and supports for regulatory, to meet today's demands for safe pharmaceutical manufacture.

Field	Applications and Objectives	Shimadzu Products
Pharmaceutical Development (Discovery)	Discovery and metabolic research	MALDI-TOF/MS, LCMS-IT-TOF, Protein sequencing systems
Medicinal Chemistry (Synthesis and Purification)	Pharmaceutical development and chemical research	Preparative HPLC
	Synthesis	HPLC (Nexera), LCMS
	Impurities analysis	Co-Sense, LCMS-IT-TOF, ICP
Pharmacokinetics, Metabolism, Safety	PK/TK, ADME	HPLC (Nexera), LCMS
CMC (Development, Formulation, Manufacturing QA/QC)	Analysis method development	HPLC (Nexera), GC, Physical property measurement instruments, Material testing machines*, X-ray CT/fluorescopy systems*
	Investigation of pharmaceutical formulation	Thermal analyzers, Particle size analyzers, Autographs*, X-ray CT systems*
	Impurities analysis	Co-Sense, LCMS-IT-TOF, GC + Headspace sampler, ICP
	Excipient tests	HPLC (Nexera), UV-1800
	Dissolution quantitation	HPLC (Nexera), GC
	Cleaning validation	TOC, UV, HPLC, LCMS

- Pharmaceutical Development (Discovery)

The Science of Food...

Food products must taste good but they also require unceasing efforts to maintain safety and reliability. Inspection, analysis and evaluation instruments play a major role in this process.

Shimadzu instruments assist in satisfying the sophisticated and strict food safety requirements at all manufacturing and inspection stages.

Field	Application and Evaluation	Shimadzu Products
Food Safety Quality Control (General Foods)	Residual pesticides	HPLC, LOMS, GC, GOMS
	Veterinary drugs	HPLC, LOMS
	Mycotoxins	HPLC, LOMS
	Foreign substances and odor	FTR, EDX, X-ray CT/fluorescopy systems*, GC, GOMS
	Hazardous metals	AA, EDX, ICP, HPLC, UV
	Additives	HPLC, LOMS, GC, GOMS, UV, FTR, AA, EDX, ICP
	Production origin and product variety	MultINA, KP, ICP-MS
	Microbial	MultINA, MALDI-TOFMS
	Packaging	GC, GOMS, EZ Test*
Food Development (Functional Foods and Supplements)	Food texture, taste	Particle size Analyzer, Texture analyzers*, Thermal analyzers, Moisture analyzers
	Flavor	GC, GOMS
	Functionality	HPLC, LOMS, GC, GOMS
	Therapeutic efficacy	Brain-function Imaging systems

NORMALAB BRIEF INTRODUCTION

For over 50 years, the company Normalab is a manufacturer of petroleum testing equipment famous in the world for its range of laboratory analyzers. Through its special expertise, Normalab is the leader in France of Petroleum glassware and manufactures glass adapted to analyzers petroleum products. Normalab gives a considerable importance to the customers' recommendations in the development of new products.

Normalab has a complete range of equipments and meets all market requirements with its manual, semi-automatic, and fully automatic alternatives. These conform to many national and international standards required in laboratories. Normalab attends to standardization committees such as ASTM, the Energy Institute, ISO or AFNOR. Moreover, the company develops equivalence with national associations such as the GBT, GOST, JIS...

Chibek Instruments limited is the distributor and technical support partner of Normalab, covering installation, training and online technical support. Below is the distributorship agreement.

Lintek on December the 05th, 2014

TO WHOM IT MAY CONCERN

CHIBEK INSTRUMENTS LTD is authorized distributor of NORMALAB FRANCE S.A.S. in Nigeria.

We will support CHIBEK INSTRUMENTS LTD in the sales and after sales services, Installations and Training for our complete product range.

Product: nta 440 – automatic version

Product Information:

Automatic version. This test method covers the determination of the flash point by Tag closed testers, of liquids with a viscosity below 9,5 cSt at 25 °C and having a flash point below 93 °C. The NTA 440 model, fully automatic tester, is equipped with ticket printer, cup and cover, cup support, Pt 100 probe, detection cable and gas tubing.

Product: nab 110 – manual instrument

Product Information:

manual instrument. Manual ABEL Flash Point allowing to work as per the traditional standard method with dry ice or with a cryostat (at choice).

Product: ncl 440 – automatic version

Product Information:

Automatic version. NCL 440 flash point open cup, with 2 lights. Operating range between ambient temperature to +400 °C. Testing process supervised at distance thanks to a large graphic display. The flash point and the fire point are detected automatically. Connection to a network with plug RS232C. The last 200 results are in memory. NCL 440 delivered with ticket printer and friendly Supervisor software.

Product: ncl 220 – half automated version

Product Information:

Half automatic. The new model NCL 220 is a half automated COC. It features an electronic temperature regulation for automatic heating slope, a digital readout and an easy access to the calibration parameters.

Product: ncl 120 – manual instrument

Product Information:

manual instrument. The NCL 121 enables the determination of flash and fire points. The instrument is fitted with electric heater, power adjustable by energy regulator on the front panel. Pilot and test flame adjustable in height by needle.

MICROSCOPES ABOUT CARL ZEISS

ZEISS is one of the world leading manufacturers of microscopes. In addition to excellent light-/ion- and electron microscopes, ZEISS also manufactures a diverse range of fluorescence optical sectioning systems as well as high-resolution x-ray microscopes.

Carl Zeiss Microscopy is a leading provider of microscope solutions in the life sciences and materials research markets and QA/QC and also manufactures optical sensor systems for integrated process analysis.

Microscope systems by Carl Zeiss are much more than just hardware. A dedicated and well-trained sales force, an extensive support infrastructure and a responsive service team enable customers to use their ZEISS instruments to their full potential.

Chibek Instruments Limited is their Exclusive Distributor and Support Center in Nigeria.

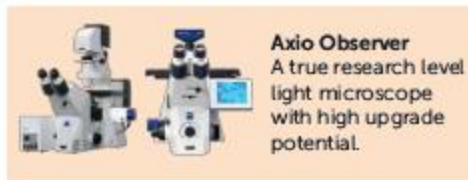

MICROSCOPES

Light Microscopes for Scientific and Routine Tasks

Light microscopes are available in different versions. Choose an upright microscope if your task is to analyze zebrafish embryos, stained tissue selections or brain slices. For tissue culture and quick assessments in routine research, the inverted microscope might be the better choice.

Axio Imager 2
Your upright research microscope platform

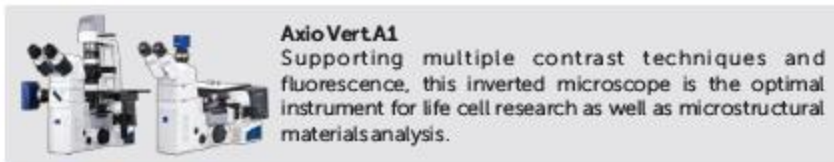

Axio Observer
A true research level light microscope with high upgrade potential.

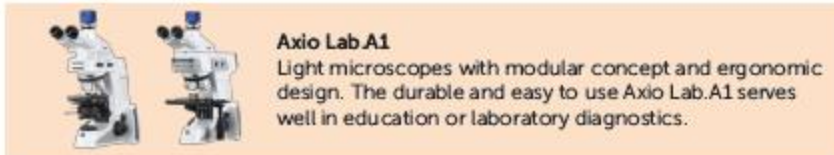

Axio Examiner
Fixed stage light microscope for Electrophysiology

Axio Scope.A1
Adaptable upright light microscope with 23 available stand versions. Axio Scope.A1 is the instrument tailored for your individual experiment configuration or inspection task.

Axio Vert.A1
Supporting multiple contrast techniques and fluorescence, this inverted microscope is the optimal instrument for life cell research as well as microstructural materials analysis.

Axio Lab.A1
Light microscopes with modular concept and ergonomic design. The durable and easy to use Axio Lab.A1 serves well in education or laboratory diagnostics.

Fisher Scientific's trusted, well established and proprietary product range, Fisherbrand is committed to providing quality products at affordable prices. Fisherbrand offers a broad selection of laboratory supplies and consumables covering a diverse range of applications such as chromatography, liquid handling, electrophoresis, pH and electrochemistry. It's the smart way to achieve cost savings over branded products without having to compromise on quality.

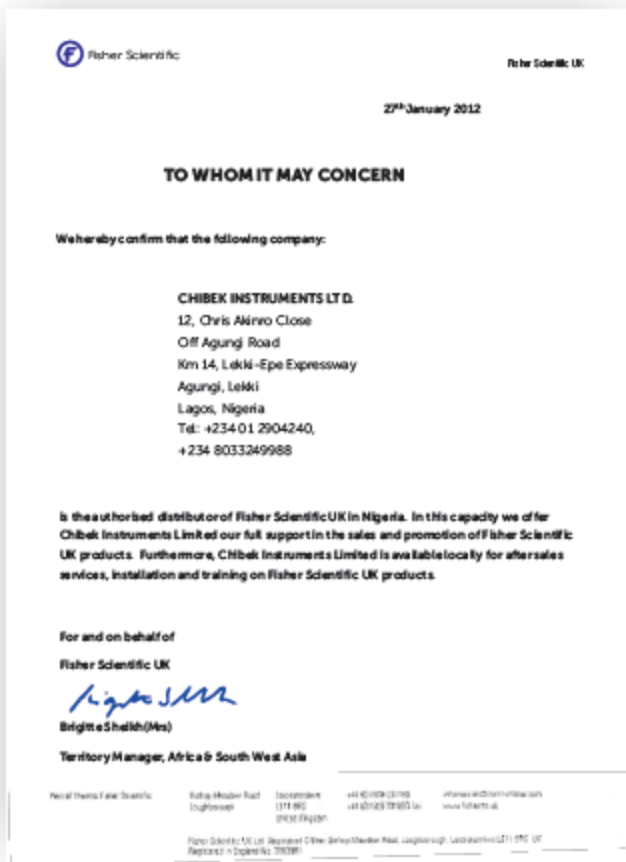

Fisher Scientific is part of Thermo Fisher Scientific, the world leader in serving science.

In addition to the extensive Fisherbrand range, Fisher Scientific is your partner of choice for chemicals and bioreagents. Fisher Chemical and Fisher Bioreagents deliver convenience, quality and consistency and are the leading provider of chemicals and bioreagents to many research sectors, such as academia, pharmaceuticals, biotechnology and healthcare.

Fisher Chemical offers more than 4,000 chemicals of the highest quality including 'dry' reagents, readymade solutions and high purity solvents. All chemicals are ISO 9001:2008 certified and undergo rigorous quality assurance and testing procedures, ensuring excellent lot-to-lot and bottle-to-bottle consistency. Supported by a clear and simple grade and application structure, choosing the product that best suits your requirements is easy.

Fisher Bioreagents offers over 1,000 products dedicated to molecular biology research, biochemistry and cellular biology. It is your single source for high purity products!

BRIEF INTRODUCTION FOR COMP CONSULTING

COMP Consulting GmbH is an engineering company, founded in 2009 and based in Wetzlar, Germany. We deliver customer oriented, smart and innovative energy storage solutions that are reliable, safe, cost effective, versatile in application and environmental friendly. Majority of the world population living in villages or remote locations and also most cities in developing countries do not have a stable or any electricity.

With COMP HC off and on-Grid Lithium Ion Battery Energy Storage Systems (BESS), it has become so easy and economical to harness, store and deliver on demand reliable electricity from solar, wind, grid or fuel generators Anywhere, Anytime, Always.

Chibek Instruments limited, since the COMP made his presence in Nigeria, has been the sole distributor and technical support partner for Comp Consulting. Below is the distributor agreement.

COMP Consulting GmbH · Schillerstrasse 23 · D-35582 Wetzlar
